- b. Central park Basin M. Fountain/C. Wannamaker
- c. Signal Point Drainage B. Champion
- d. Lighthouse Point Basin/Drainage Project (?) M. Johnson

Stormwater Asset management component for Geothinq Thomas & Hutton

Request for Support:

M. Johnson/M. Fountain

The Stormwater Managers would like to ask elected officials for support in the State House effort to get SC DHEC-OCRM to treat activities in the critical area to repair, maintain or replace existing stormwater drainage structures as routine maintenance of previously permitted activities and requiring no other approvals or permits from that agenda. We would like to ask the James Island Town Council for a formal Resolution to that effect that can be sent to our State Representatives.
